RTL

CRC International is an established, fully integrated company based in Dubai that offers an extensive range of supermarket equipment complemented by related technical services to clients across the UAE.

PLANNING / COORDINATION & INSTALLATION

CRC offer an extensive scope of services for both new and refurbishment projects. From planning and managing well-organized schedules, to executing efficient, high level installations, the process is continuous from conception to completion and is coordinated with the needs of the client in mind in order to minimise interruption to normal trading activities. **We pride ourselves in consistently demonstrating standards of care and excellence in our installations.**

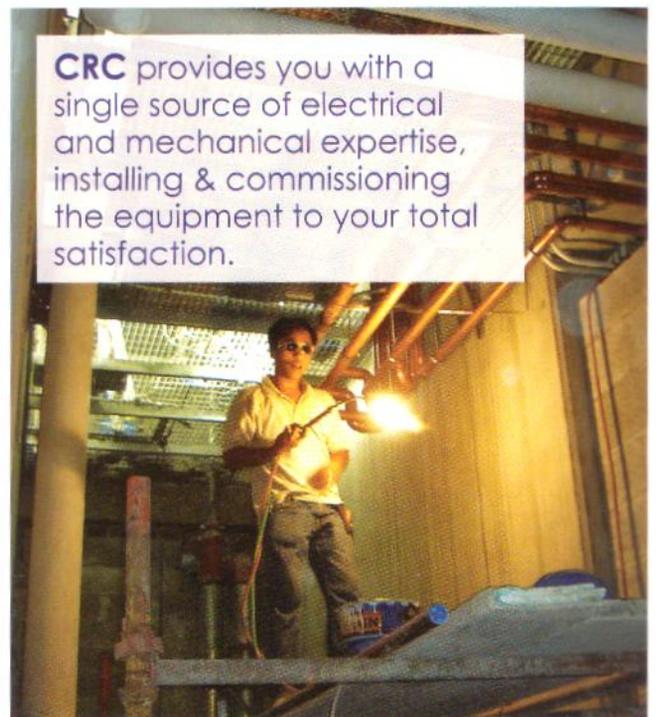

CRC TEAM

At **CRC** our aim is nothing short of **excellence**. Our **experienced, dedicated staff** will ensure a timely and efficient cycle of consultation and design, supply, installation, commissioning and maintenance.

Through continuous hard work, the team at **CRC** have established long lasting client relationships, developing a **steadfast reputation in the industry for reliable service.**

CRC combines commercial expertise with high quality product lines to ensure every project/installation is undertaken with attention to detail and delivered on time.

CRC provides you with a single source of electrical and mechanical expertise, installing & commissioning the equipment to your total satisfaction.

PRODUCTS

CRC International offers a broad range of quality equipment such as all types of chiller and freezer plug-in or remote units, all types of shelving and checkout counters, salad counters, bakery cabinets, ice making machines, as well as condensing units, compressors, racks, vegetable misting systems and so on.

We have established **strong relationships with our business partners** and deal with major international companies and brands in the retail field.

All of the business partners we have selected to work with are known for creating and controlling high quality products that meet with the needs and expectations of our clients. Furthermore, our unique and long standing position with our partners means that we are able to offer extremely competitive market prices with pre and post-sale logistical support ensuring prompt **delivery and installation to the highest standards.**

REFRIGERATION

One such brand is Bonnet Neve, a global leader in the design and production of refrigerators and refrigeration units for large scale distribution.

By strategically aligning ourselves with internationally recognised brands such as Bonnet Neve and Cefla, we are able to offer our clients full refrigeration and shelving solutions.

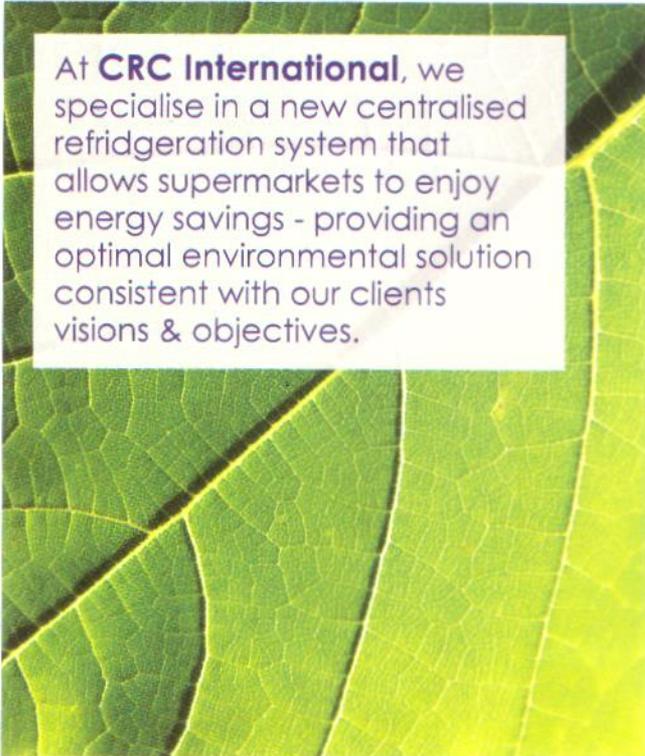

PLATE HEAT EXCHANGERS

Partnering with leading suppliers in heat exchange such as Onda, we are able to help supermarkets to further reduce energy consumption by offering a complete range of brazed plate heat exchangers dedicated to refrigeration.

Use of highly efficient, dual circuit brazed plate heat exchangers offer maximum performance at both full-load and part-load conditions.

HOT GAS DEFROST SYSTEM

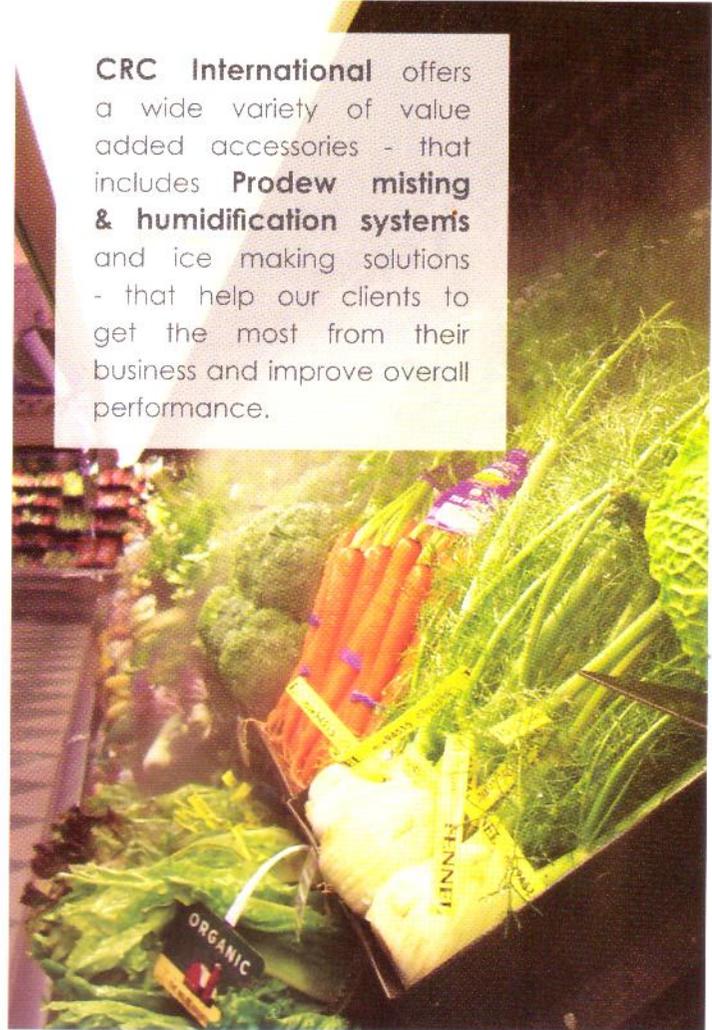

Another way that **CRC** make it easier to save energy is by installing a hot gas defrost system which eliminates the need for electrical defrosting - therefore reducing consumption.

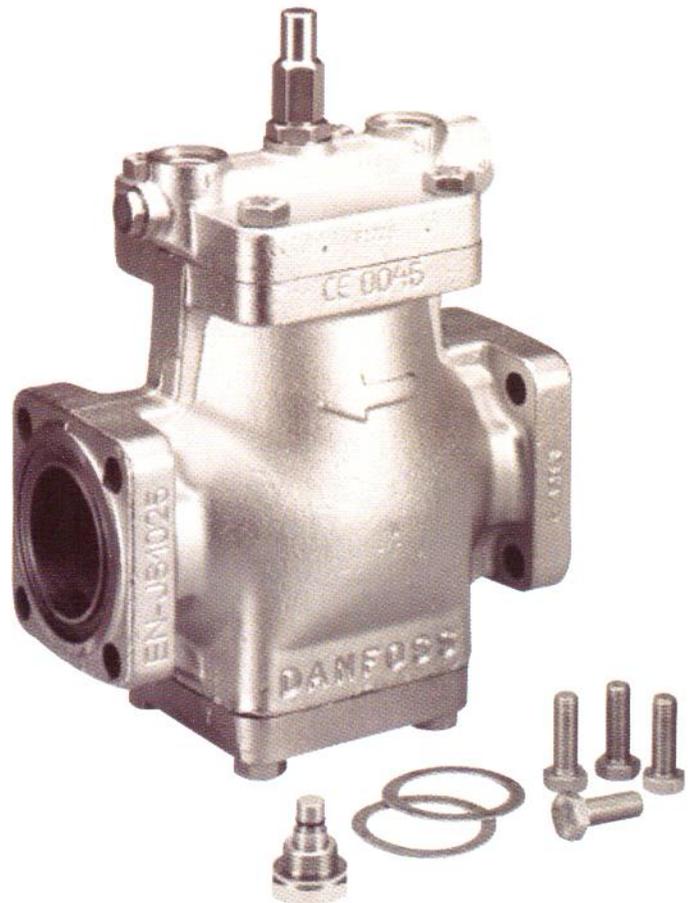

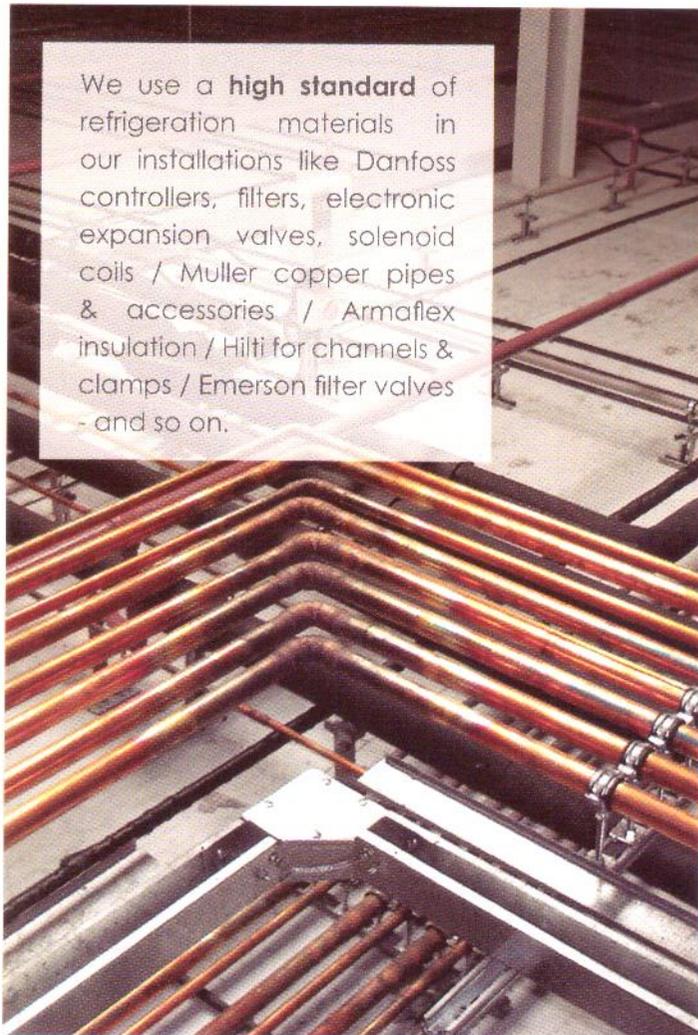

At **CRC International**, we specialise in a new centralised refrigeration system that allows supermarkets to enjoy energy savings - providing an optimal environmental solution consistent with our clients visions & objectives.

CRC International offers a wide variety of value added accessories - that includes **Prodeew misting & humidification systems** and ice making solutions - that help our clients to get the most from their business and improve overall performance.

We use a **high standard** of refrigeration materials in our installations like Danfoss controllers, filters, electronic expansion valves, solenoid coils / Muller copper pipes & accessories / Armaflex insulation / Hilti for channels & clamps / Emerson filter valves - and so on.

PORTFOLIO

Over the last decade, **CRC** has developed a **prestigious clientele** base by executing hundreds of major projects for many national and international retail outlets. A selection of successfully completed projects include:

Spinneys Supermarket: Motor City, Silicone Oasis, Spinneys Food Processing Center Jebel Ali,

Waitrose Supermarket: Dubai Mall, Marina Mall,

Galleries Lafayette Gourmet: Dubai Mall,

Carrefour Market: Wafi Mall, Oasis Centre,

Various projects abroad in Oman, Nigeria, Congo, Seychelles, **and many more.**
